2.3) you may use my testimony

I would like to thank **Award Training** for the time and extra effort that they have put in helping me to develop and shape my skills as a manager. The material are well put together and broaden you thinking and understanding. I especially would like to thank Graham for always being available and the patience you had with myself when some sectors where grey aeries and for your determination in assuring I understand all aspects. I would without a doubt recommend Award Training.

I thank you.

Best Regards,
Riaan J Louw
